NIRO Design Center Presents..... New Generation Fashion Fury Runway Show

*A fashion showcase displaying the designs of
NiRo Design Center's Summer Camp Design Students*

**August 13, 2008, Union Station Great Hall
Downtown, Hartford 5:00 p.m. till 8:00 p.m.**

NiRo Design Center is a full-service training and consulting center specializing in creative careers and business development. Our focus is to develop the minds of young adults looking to explore opportunities in the field of design, while teaching them a trade and connecting them with industry professionals that can further develop their skills and expand their knowledge in industry related careers.

The primary goal of NiRo Design Center is to train students to make the maximum use of their natural talents and to intelligently and effectively pursue their careers in fashion and industry related fields where knowledge, skills and determination is key.

As new concepts and principles are introduced throughout each module, they are defined, explained and illustrated with practical applications. Our program will reflect "real market" experience through business and retail training that will allow participants to acquire skills that industry professionals practice daily in fashion capitals around the world.
